PSI	2000 - 3000
Model Number (49-State/CARB)	6412 / 6414
GPM	2.8
Cleaning Power	8400
Engine	Generac OHV horizontal shaft with low-oil shutdown
Pump	Horizontally-mounted axial cam
Generac-designed Spray Gun	Ergonomic, cushion grip with inverted trigger
High-Pressure Hose	30' PVC
Soap Tanks	One-drainable
Quick-Click™ Nozzle Tips	(3) 0°, 25°, soap
Wheels	11" Never-Go-Flat wheels
Warranty	2 years limited
Weight	75 lbs. (39.02 kg)
Dimensions (L x W x H)	22.5" x 22.5" x 22.5" (57.2 cm x 57.2 cm x 57.2 cm)

- Generac® 212cc OHV Engine Largest, most powerful engine in its class
- It's 4 power washers in 1 Variable-pressure technology for a wide range of tasks
- Automatic System Protection If the oil or water runs low, the LED System Alert activates and automatically cuts power to the unit to protect it from damage
- Consolidated Control Panel All your controls in one easily accessible location
- Precision Balanced For stability and effortless mobility
- Folding/Nesting Handle For compact storage
- Drainable detergent tank- easily flush chemicals from tank after each use
- Wide, Never-Go-Flat 11" wheels for easy transport regardless of terrain

residential

power washers

Ergonomic spray gun

Available on 2500PSI and 2700PSI units

- Cushion grip for comfort
- Easy-to-pull trigger reduces fatigue
- Rear hose connection for maximum convenience

high-performance spray gun

Available on 3100PSI units

- Thicker cushion grip for extended use
- Longer barrel provides added stability
- Easy-to-pull trigger reduces fatigue
- Rear hose connection for maximum convenience

- Generac OHV horizontal shaft engines provide plenty of power.
- Axial cam pumps are easy to access.
- Integrated spray gun holder keeps spray gun secure during transport.

accessories

ITEM#: 6123 / 6150

5-pc. nozzle tips

- Color coded for easy spray pattern identification
- Plastic tip casings & steel tips are durable & long lasting
- Available in 3.2 and 4.5 orifice
- Quick connect interface

ITEM#: 6120

rotary turbo nozzle

- Increases productivity by 40%
- Pinpoint stream agitates dirt out of porous surfaces
- Includes male 1/4" quick connector plug
- Just snap into your quick connector lance
- Not meant for use on delicate surfaces

ITEM#: 6130

premium gun

- Thicker cushion grip for extended use
- Longer barrel provides added stability
- Inverted Easy-to-pull trigger reduces fatigue
- Rear hose connection for maximum convenience

ITEM#: 6131

side-handle for premium gun

- Adjustable side handle provides precise control
- Can only be used with Generac premium gun

ITEM#: 6129

ergonomic gun

- Cushion grip for comfort
- Easy-to-pull trigger reduces fatigue
- Rear hose connection for maximum convenience

ITEM#: 6127

ITEM#: 6128

20" & 33" lance

- Stainless steel design with brass connections for extended life
- Compatible with most guns
- Connects to guns with female M22 connections

ITEM#: 6115

1/4" x 30' PVC hose

- Nylon Reinforced for durability
- Light weight non- marring PVC finish
- Bend restrictors at each end to reduce wear & tear on connectors
- Female M22 connections

ITEM#: 6116

3/8" x 35' & 50' steel reinforced hose

- New Coldstream cover is non-marring and 5x more abrasion resistant than equivalent rubber hoses
- Kink and cut-through resistant- High tensile steel braid construction provides superior durability
- More flexibility than rubber hoses in cold weather conditions
- Heavy duty bend restrictors at each end to reduce wear & tear on connectors
- Male & Female quick connections

ITEM#: 6117

frequently asked questions

power washers

What is a power washer?

A power washer is an outdoor power tool that makes cleaning easier by using a high-pressure spray of water to clean a surface. A gasoline engine or electric motor drives a pump, which delivers water using your home's water supply. The water enters the pump, is pressurized inside the pump, and exits the pump at as much as several thousand PSI, depending upon the unit.

The force of the high-pressure spray loosens dirt and flushes it away. On more professional-grade models, the spray is even powerful enough to strip paint, which is useful in paint preparation. You can use many detergents with a pressure washer, too, for even more effective cleaning. And there are accessories you can buy that make cleaning even easier.

What is "PSI" and "GPM," and why are they important?

Short for "pounds per square inch," PSI is a measure of the water pressure coming out of the power washer. A typical garden hose dispenses water at about 30-40PSI, and a coin-operated car wash provides about 700PSI. A power washer, by contrast, typically dispenses water at several thousand PSI.

GPM stands for "gallons per minute." It describes how much water is flowing through the pressure washer.

Together, they provide your power washer's cleaning power. PSI provides the "oomph" you need to lift dirt and grime, and GPM provides the necessary quantity of water to wash it away. Multiply PSI by GPM. The higher the number, the greater the cleaning power.

Bringing 50+ Years of Expertise to Power Washers

Generac power washers are built upon decades of knowledge designing and building power equipment. Since 1959, Generac's primary focus has been on residential, commercial and industrial generators. Then, in the early 1990s, we applied our knowledge of air-cooled engines and portable product design to power washers; it was a natural evolution. And for the first time power washers were readily available to consumers at a price they could afford. Along the way, we were granted several patents that have since changed the industry. Now we bring you an entirely redesigned family of power washers, designed specifically to meet the needs of consumers and professionals alike.

*Carbon monoxide produced during use CAN KILL IN MINUTES. NEVER use indoors or in the sheltered areas, EVEN IF doors and windows are open. Only use OUTSIDE, and far away from windows, doors and vents. READ MANUAL BEFORE USE for important details on safe operation.

A TRADITION OF QUALITY AND INNOVATION

For over 50 years, Generac Power Systems has been a leader in innovative design and superior manufacturing. When it comes to developing products that are both durable and reliable, we stand head and shoulders above our competition. The result of our efforts can be seen across our many product offerings.

We design and build engine-driven power generation equipment, automatic transfer switches, control systems, air-cooled engines and power washers.

Regardless of the product, our vertical integration allows us to control the quality, availability and flow of materials throughout the manufacturing process. And each product is factory tested prior to shipment.

It is this ongoing commitment to quality and innovation that has made Generac a name that people have come to trust.

COMMITMENT TO SERVICE

Generac power washers are supported through an extensive nationwide service network that provides parts and technical support to homeowners and contractors. For a power washer dealer near you, visit generac.com.
